Food Chemicals Codex: Institute of Medicine (U.S.). Committee on Food Chemicals Codex 2003-01-01 The Fifth Edition reflects many of the changes in science and manufacturing since the publication of the Fourth Edition. Also, where feasible, FCC specifications are now harmonized with those of other standard setters, in particular the FAO/WHO Compendium of Food Additive Specifications. The FCC receives international recognition by manufacturers, vendors, and users of food chemicals. The Fifth Edition will be a welcome update to food technologists, quality control specialists, research investigators, teachers, students, and others involved in the technical aspects of food safety.

Quality in the Manufacture of Medicines and Other Healthcare Products: J. R. Sharp 2000 This overview of quality assurance in pharmaceutical production describes the principles and practice, and discusses specific quality issues, providing a guide to both national and international regulatory requirements.
